Developed award-winning hotel sales proposal software tool through DreamWeaver and Adobe Flash.

Connected clients and their eProposal solutions while managing a team of 5-10 developers. Training and developing in HTML, CSS and Flash.

PERSONAL INFORMATION

My desire has always been working with ingenuitive and passionate people with a common goal to press past conventional methods to create something worthy of mention.

With over ten years in digital technology and interactive marketing I feel right at home speaking in/or adapting to any scripting or technical language that suits the specific acquired goal.
